WINDOWS 10 ROLL OUT

DCH IT department, as of this past week, began to roll out Windows 10 into DCH with this year's computer rotation. This is a big change for our department and our organization. As most of you know, Windows 10 looks different than Windows 7 and can function differently in some aspects. We have done our best to make sure this is a seamless transition but it may still be difficult. If you have any questions about Windows 10 and how it works, please let the IT department know and we will set up 1-on-1 training with you to assist in this transition. Thank you for your understanding.
